BOTH SIDES EAGER FOR SETTLEMENT OF CLOAK STRIKE

Employers' Conference To-
Day May Result in a Plan Ac-
ceptable to the Workers.

The International Cloak and Skirt Manufacturers' Association, in the second round of its fight for open shop conditions, claimed to-day that it was making decided gains against the union in the largest strike ever called in the history of the industry. E. J. Wile, President of the employers' association, said despite a force of 15,000 pickets sufficient workers had been brought into the factories to insure great progress toward the turning out of next season's styles.

The month of June, Mr. Wile declared, is usually a dull one in the trade, the time being mostly used in getting out designs and samples for the drapers and for this purpose only 3,000 employees are needed, of which 1,800 are on duty. But with the first of July the busy season opens and fully 20,000 additional workers will be required. The employers demonstrated their steps toward victory by taking a party of reporters through the J. C. Stratton & Co. shop which occupies the greater part of the eleven-story structure at No. 15 East Twenty-seventh Street. Machines were turning and designers were busy with the new creations.

Both sides are looking forward to a settlement and from statements

from employers and employees it would appear that an amicable arrangement may be entered into shortly, judging from to-day's outlook. The International Cloak and Skirt Manufacturers' Association will meet at No. 320 Madison Avenue to-morrow afternoon to bring about a settlement of the strike. Efforts will be made to bring about a meeting with union leaders toward effecting a settlement. Another meeting will be held at the Hotel Imperial, at which the Executive Board of the Designers' Association will take steps toward obtaining state police protection. The day through their counsel, Lazarus Joseph, of No. 261 Broadway, charge that they are in danger from union pickets and will draw up a petition for the Police Department requesting more protection in going to and from their work. There are 600 designers in the association and they are the creators of styles in the cloak and suit line.

The International Ladies' Garment Workers' Union, of which Ben Schlesinger is the president, expresses confidence in a victory for the union. He said that he will shortly interview the Mayor as a number of prominent New Yorkers who have consented to aid in the picketing work. All last night pickets watched the factories in the "silk district," and this morning they were relieved when a force of 15,000 unionists came to the battlefield. The union claims to have 42,000 workers on strike.

A close survey made of the strike situation reveals the fact that both sides are anxious for a cessation of hostilities. This afternoon's conference of the employers may result in the promulgation of a plan that will meet with the approval of the strikers.

WALL STREET.

Market received news of loss of Lord Kitchener and his staff without any perceptible shock. Profit taking in Marine shares caused small setback. Goodrich was strong, up two points. Crucible gained 2%. U. S. Smelting gained 2%. Copper stocks were steady and railroad stocks were steady on small advances. Activity on the bull side was confined to a few issues, but general market held firm. Chandler Motors reacted to 117%, off 18½ points from Monday's high. Maxwell gained a point in first hour, and lost all its advance in second hour. Reading gained 3½ points to 104 from low point, followed by advances in some of the other rails. Louisville and Nashville and Illinois Central advanced. Inspiration was again active, copper stocks, rising to 45½, up 1½ in third hour of the session, followed by gains in that group. Metal stocks developed strength led by Zinc issues, showing considerable gains. Harvester gained 4 points.

After news of extra dividends on several of the copper stocks was published the market sold off from earlier high and trading became less active, with short periods of dullness. Heavy selling at the close caused reaction. U. S. Steel sold at \$2 5-8, off 7-8.
